

More Than Fish – Mason Harms -- 2018

VERSE 1

C G/B Am F
2015 was the fateful year that you and I would meet
Grew up city boy but the small town feel was more appealing
The country and trees really seemed to understand me
And so do you

On the outside it looked like I loved my life and all was fine
Nobody knew it but Inside I really was a lonely guy
I asked God to give me a friend who loves me for the way I am
And there you came!

PC

G Dm
Where did the time go.
Em F
It feels like yesterday We were fishing now I gotta say

CHORUS

C G/B
Farewell my friend at least for now
Am F
We'll meet again when God allows
You were made for more than this
Go on new adventures
Go fishing for more than fish

Verse 2

Do you remember when we drove out to the reservoir
Started catching fish but ended up shooting a little more
Between illegal things and cactus spines sticking out of me
memories
I find it funny how we often have grandiose ideas
But after the execution the outcome almost never ends up ideal
Freezing fingers, endless wandering, and pain are just a few
But I got to do it with you.
